

Dear Parents,

Namaskar!

At the outset we at MVN School Welfare Association are delighted and thankful at the support extended by the members in our fight against the Commercialisation and profiteering by Schools in imparting education. Look at the details how far we have come since we started.

This fight started in March 2012 with few likeminded people and now the same total has grown to 1073 online members connected over the email and 370 on average connected who have taken the pledge to fight against the arbitrary and exorbitant fee hike. Let us take this pledge forward and enlighten the sleeping knowledgeable minds to wake up and take this conscious call to make this change. It is well said by the father of the nation “The change you want to see you bring that change in yourself first”

We have 1073 emails registered with us of the parents too which we are sharing all the messages. If we assume that 300 emails are duplicate than approx. 700 parents are receiving our messages. But the maximum cheque collected by us is 370 only. That means only approx. 200 parents are actively participating in this cause.

This means every active member is fighting for 10 parents if we account for the total strength of the school. Today’s message is for these fence sitters.

We have debated among ourselves, talked to various parents and concluded why some parents are Afraid (yes we are using this word) to speak against this injustice.

- 1) **Affordability** : See the below calculations how the Fee will grow in coming years .Yes we all can afford these fees now. Parents who are fighting against this cause are worried about the future not for the present. If we assume that we are not able to stop this menace and the school goes on increasing the fees as it did in the last five years the picture will be as below:

	Global	22140											
	CBSE	12780											
	Yearly Increase	16%	16%	16%	16%	16%	16%	16%	16%	16%	16%	16%	16%

11	12780	14,824.80											
12	12780												

- a) IF YOUR CHILD IS TODAY STUDYING IN KG WHEN HE REACHES IN 5TH CLASS – THE FEES WILL BE 46501 PER QUARTER OR NEARLY 15500 PER MONTH and when he reaches in class 10th it will be 131423 per quarter which comes to nearly 41000 per month. Can you afford this fees. Remember THIS DOES NOT INCLUDE TRANSPORT FEES AND SAID ANNUAL CHARGES.
- b) Remember this will be the highest fees for a CBSE affiliated school in whole NCR. School has itself clarified that the ‘GLOBAL PATTERN’ is just a nomenclature and school does not have any global affiliation.

- 2) **PARENTS ARE AFRAID THAT SOMETHING WILL HAPPEN TO MY CHILD:** As per the RTE act (right to education) your child is having right to elementary education which all school have to adhere to. Example is the children of about 370 parents fighting for the cause for the last two years. **Remember all the members participating in this movement also have their children studying in the school. Let us wake up now or never.**
- 3) **Some Parents think they don't have time :** We know time is money. Remember each and every member is also working. When there is will there is way. People participating in the movement also work somewhere. But they spare time. The last thing you can do is join the association, be part and pay the fee cheque through association. It is we who make the system and if all the parents go together aim is achieved then what are we scared off.
- 4) **WE WILL CHANGE THE SCHOOL: Yes this is an easy way to run away from the problems.** What's the guarantee that the new school will not do such things? Remember MVN was also running according to rules and regulation till year 2007. The commercialisation and profiteering of the education started only after year 2007 with introduction of GLOBAL EDUCATION PATTERN which never happened in practical.
- 5) **WHAT ELSE WE BENEFIT IF WE JOIN THE ASSOCIATION:** As per the CBSE bye laws for every fee hike school should take a consent from the parents association. This means MVN school is clearly violating this law for the last so many years. Have you heard of any other parents association ??????????
- Last so many days you are hearing about the school teachers irresponsible behaviour towards our children. A corporeal punishment was given to a child studying in 1st class and a child of 1st class class was sent home bleeding even when the injury to child happened in school in presence of class teacher(if any person is having doubt about these incidences medical reports can be shared). If we have a strong parents association we can have a dialog with school to ensure all the deserved facilities are given as per the act & rule. Now ask yourself a question? After paying the full exorbitant & hiked fee are you satisfied with the facilities provided by the school ??????????. If your child faces some problem you complain & what do you get in return?????? . ONLY ASSURANCES FROM SCHOOL MANGEMENT AND YOU HAVE TO FIGHT FOR YOUR RIGHT OR BEG FOR IT OR LEAVE IT TO GOD!!!

WE ONCE GAIN APPEAL TO ALL THE MEMBERS PLEASE CONVINCCE A NEW PARENT AND MAKE THEM A PART OF THE ASSOCAITION. PARENTS LEAVE THE FEAR. SHOW SOME GUTS AND COURAGE.

Please visit us at mvnparents.com and go the consent form section. You have the option to fill it online or download and submit physically . Please feel free to discuss and have your doubts clear.

Thanks for giving your time to read this message. Now its time to act.

With Regards,
MVN School parents welfare association.
